

## Introduction

---

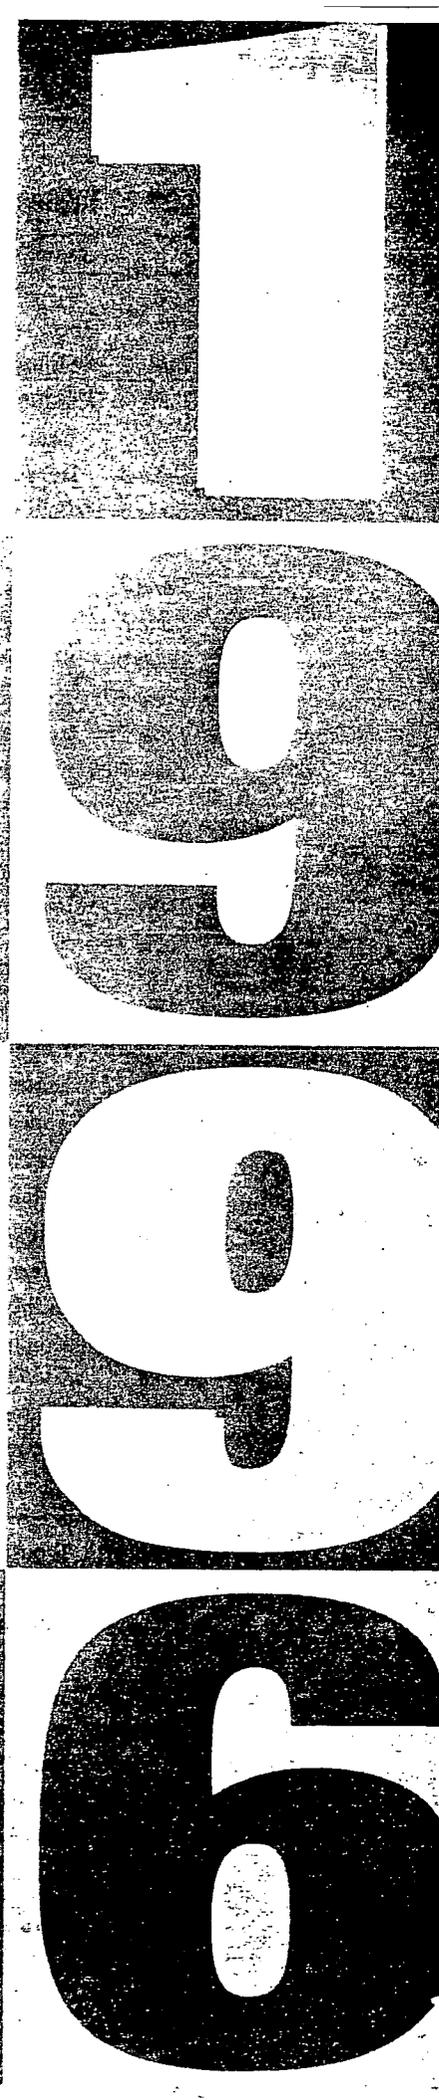

**G**reetings! For the third consecutive year we are pleased to publish the Internal Revenue Service (IRS) Data Book (Publication 55B). The Data Book contains IRS statistical data and organizational information for Fiscal Year 1996—October 1, 1995 through September 30, 1996.

This year, the Data Book reflects changes to the IRS organizational profile. The IRS national structure of seven regions was consolidated to four regions on October 1, 1995. Districts were consolidated from 63 to 33 by September 30, 1996. It is an organizational structure designed to more efficiently support the changes IRS is making to improve the way we do business in the future.

The IRS remains committed to its mission of collecting the proper amount of tax revenue at the least cost to the taxpayers; serving the public by continually improving the quality of its products and services; and performing in a manner warranting the highest degree of public confidence in its integrity, efficiency and fairness.

For a narrative of IRS objectives and activities during Fiscal Year 1996, please refer to the *IRS Chief Financial Officer's Annual Report, Fiscal Year 1996*.

## Footnotes for Table 1

— Not available

NOTE: Detail may not add to totals due to rounding.

1. Refund Principle amounts only, does not include interest paid on refunds.
2. Includes Presidential Election Campaign Fund contributions of \$68,518,247 in fiscal year 1995 and \$66,267,518 in fiscal year 1996.
3. Refunds on all types of Forms 1040 from withheld taxes, does not include amounts for Earned Income Tax Credits of \$18.7 billion.
4. Collections of individual income tax are not reported separately from old-age, survivor's, disability and hospital insurance (OASDHI) taxes on wages, salaries, and self-employment income. The amount of OASDHI tax collections shown is based on estimates made by the Secretary of the Treasury pursuant to the provisions of section 201(a) of the Social Security Act as amended and includes all OASDHI taxes. The amounts shown for the two categories of individual income taxes were derived by subtracting the OASDHI tax estimates from the combined totals collected.

## Footnotes for Table 2

NOTE: Detail may not add to totals due to rounding.

1. Includes Forms 1040C, 1040NR, 1040PC, 1040SS/PR, and 1040T.
2. Includes Forms 1040X, 1041A, 1120X, 2688, 4868, 7004, and 8752.

## Footnotes for Table 3

NOTE: Detail may not add to totals due to rounding. Amounts reflect adjustments made to data reported in prior years. Negative figures are displayed when prior year adjustments exceed current year receipts.

1. Receipts in the various states do not indicate the federal tax burden of each since, in many instances, taxes are collected in one state from residents of another state. For example, withholding taxes reported by employers located near state lines may include substantial amounts withheld from salaries of employees who reside in neighboring states. Also, the taxes of some corporations are paid from a principal office, although their operations may be located in another state, or throughout several states.
2. Includes taxes of \$501.9 million on unrelated business income of exempt organizations (Forms 990T).
3. Collections of individual income tax (withheld and not withheld) include old-age, survivor's, disability, and hospital insurance (OASDHI) taxes on salaries and wages (FICA) and self-employment income (SECA). Estimated national totals for individual income tax and for employment taxes are shown in Table 1, and are used to obtain national totals for individual income taxes and for employment taxes in Table 4.
4. Includes fiduciary income tax collections of \$8.0 billion.
5. Amounts not classified by state or district as of the end of the fiscal year. This includes tax payments made to banks under the Federal Tax Deposit (FTD) System. These payments are included in collections but are not classified by district until applied to taxpayer accounts. Also included are credits allowable on income tax returns for certain gasoline, diesel, and special motor fuel tax payments and for excess payments under the Federal Insurance Contributions Act. Designations by taxpayers of a portion of their taxes to the Presidential Election Campaign Fund are also included even though they are not collections, as such, because they do not affect taxpayer liability. Transfer of amounts to this fund was made on a national basis only and had no effect on district and regional collection data.

### Footnotes for Table 15

Note: Detail may not add to totals due to rounding. With the exception of estimated tax, assessments and abatements can apply to any tax year. When the number and/or amount of abatements exceeds assessments the result(s) will be a negative number and/or credit amount. Additionally, the law requires that interest be charged on late payments. Net interest totaled \$4.8 billion on individual returns and 6.0 billion on business returns.

- Certain civil penalties have been identified as having been abated due to a reasonable cause judgement made by an IRS employee following specific guidelines. Other abatements are made because of a decrease in the underlying tax.
- Includes failure to supply taxpayer identification number and failure to report tips.
- Includes Forms 1120 series, 990C and 990T.
- Includes Forms 940, 941, 942, 943, 945 and CT-1.

### Footnotes for Table 18

- Pending cases include only Appeals Jurisdiction cases (excludes cases tracked by Appeals which are in Counsel Jurisdiction for trial preparation).
- Received statistics are net numbers, i.e., actual number of cases received plus or minus transfers and adjustments to prior years' receipts.
